Supplemental DETAILED ACTION

1. This communication is in response to amendment filed 05-01-2006. Att. Cristopher G. Wolfe issues this supplemental office action in response to the request to correct minor errors in the Examiner's amendment contained in Notice of Allowance mailed 10/2/06.

Response to Amendment

2. Claims 1,4,6-8,10-12,14,15,25,28-36 and 38-41 are pending and have been allowed. (Refer to the examiner's amendment, which follows.)

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Cristopher G. Wolfe (Reg. No. 56,264) on 12/14/06.

The application has been amended as follows:

In the claims, amend claims 1 and 25 as follows:

Claim 1: (Currently Amended): A computer-based method for administering financial instruments, comprising:

executing a processing program loaded on a computer, the processing program configured to establish a trust with trust units, each trust unit representing an interest in a bond

Art Unit: 3693

having a maturity date and one or more equity security shares, the one or more equity security shares defining a share ratio; and

periodically performing the following steps by accessing, via one of the computer and a second computer, information stored in a database, the information in the database comprising at least trust information and equity security information. to enable the one of the computer and a second computer to:

(a) compute price of the trust units based on the share ratio for a period and current values of the bond and the one or more equity security shares;

(b) determine a predetermined threshold price based on a par value of the trust units at maturity;

(c) compare the price of the trust units to the predetermined threshold price;

(d) determine a distribution to holders of the trust units based on the comparison, the distribution including cash payments that are paid in cash and based on share dividends of the equity security shares of the trust units and performance payments that are paid in a number of equity security shares and based on underlying asset appreciation; and

(e) adjust the share ratio of the trust units to reflect the distribution.

Claim 25: (Currently Amended): A computer-based method for administering financial instruments, comprising:

executing a processing program loaded on a computer, the processing program

Art Unit: 3693

configured to establish a trust with trust units, each trust unit representing an interest in a fixed-income security that has a maturity date and one or more equity security shares, the one or more equity security shares defining a share ratio; and

periodically performing the following steps by accessing, via one of the computer and a second computer, information stored in a database. the information in the database comprising at least trust information and equity security information, to enable the one of the computer and a second computer to:

compute price of the trust units based on the share ratio for a period, current values of the fixed-income security and the one or more equity security shares;

compare the computed price of the trust units to a predetermined number, wherein the predetermined number is based on a par value of the trust at maturity;

determine a distribution to holders of the trust units based on the comparison, the distribution including cash payments that are paid in cash and based on share dividends of the equity security shares of the trust units and performance payments that are paid in equity security shares and based on underlying asset appreciation; and

adjust the share ratio of the trust units to reflect the distribution.

Reasons for Allowance

Please refer to detailed reasons for allowance presented in the Notice of Allowance mailed 10/2/06.
